20 One-Liners to Remember

Quick-fire facts for last-minute revision.

1. **CAIIB Advanced Bank Management (ABM) is a compulsory paper with 100 questions to be answered in 2 hours.**
   ABM is one of the compulsory CAIIB papers and carries a fixed 100-question, 120-minute format.

2. **The revised CAIIB ABM paper has four modules: Statistics, HRM, Credit Management, and Compliance & Corporate Governance.**
   IIBF restructured ABM into these four modules to cover both numerical and conceptual banking skills.

3. **In CAIIB ABM, numerical answers must be typed directly with no multiple-choice options shown.**
   Unlike MCQs, typed numerical answers remove guesswork and demand precise calculation.

4. **There is no negative marking in the CAIIB ABM exam, so candidates should attempt every question.**
   Since wrong answers carry no penalty, an educated guess can only help the overall score.

5. **CAIIB ABM is conducted online in a computer-based mode by IIBF.**
   IIBF administers CAIIB exams through an online, computer-based testing format.

6 **Candidates typically need a minimum of 50 marks in ABM, or 45 marks with an aggregate of 250, to pass.**
IIBF allows a lower per-paper score if the candidate's combined score across CAIIB papers meets the aggregate threshold.

7 **A useful time budget for CAIIB ABM is roughly 70 seconds per question across the 2-hour exam.**
Dividing 120 minutes across 100 questions gives about 70 to 72 seconds per question on average.

8 **Module A of CAIIB ABM covers Statistics, including central tendency, probability, correlation and regression.**
Statistics is the most numerically intensive module in the ABM syllabus.

9 **Module B of CAIIB ABM covers Human Resource Management, including motivation theories and performance appraisal.**
HRM is largely theory-based and considered a relatively scoring module.

10 **Module C of CAIIB ABM covers Credit Management, including credit appraisal, working capital finance and NPA management.**
Credit Management blends conceptual banking knowledge with applied numerical problems.

11 **Module D of CAIIB ABM covers Compliance in Banks and Corporate Governance, including Basel norms and KYC/AML guidelines.**
This module is concept-heavy and often underestimated by candidates despite carrying scoring potential.

12 **Most successful CAIIB ABM candidates attempt around 10 to 15 full-length mock tests before the exam.**
Repeated full-length practice builds the speed and accuracy needed under real exam conditions.

13 **CAIIB is conducted by the Indian Institute of Banking and Finance (IIBF).**
IIBF is the professional body that designs and administers the CAIIB certification exams.

14 **Maslow's and Herzberg's motivation theories are commonly tested topics under the HRM module of CAIIB ABM.**
These classical motivation frameworks are staple theory topics within the ABM HRM syllabus.

15 **MPBF and NPA classification are recurring numerical topics in the Credit Management module of ABM.**
Maximum Permissible Bank Finance and asset classification rules are frequently tested application areas.

16 **Basel capital norms and KYC/AML guidelines are key concept areas under the Compliance & Corporate Governance module.**
These regulatory frameworks form the backbone of the compliance-focused module of ABM.

17 **CAIIB ABM candidates should review their error log in the final week rather than attempting new mock tests.**
Reviewing past mistakes in the last week helps prevent repeating known errors on exam day.

18 **Since ABM numericals are typed without options, calculation accuracy matters more than answer recognition.**
Without answer choices to cross-check against, precise computation becomes essential to scoring.

19 **Correlation, regression and hypothesis testing are statistical techniques tested under Module A of CAIIB ABM.**
These are core inferential statistics topics within the Statistics module.

20 **Candidates should always confirm exact CAIIB exam dates, marks and passing criteria from the latest official IIBF notification.**
IIBF periodically updates exam rules, so the official notification is the authoritative source.
