20 One-Liners to Remember

Quick-fire facts for last-minute revision.

1. **ABFM stands for Advanced Business and Financial Management.**
   ABFM is the full expanded name of the CAIIB paper covered in this syllabus guide.

2. **ABFM is Paper 3 among the four compulsory papers of CAIIB.**
   CAIIB's compulsory papers are ABM, BFM, ABFM and BRBL, with ABFM ranked third.

3. **The CAIIB ABFM syllabus is organised into four modules: A, B, C and D.**
   Each module groups related chapters, from management theory to emerging finance topics.

4. **ABFM Module A covers the management process, including planning, organizing, staffing, directing and controlling.**
   Module A is built around the classic functions every manager performs.

5. **ABFM Module B covers advanced financial management topics such as leverage and capital budgeting.**
   Module B is the numerical core of the paper, built on formula-driven problem solving.

6 **ABFM Module C covers corporate valuation and mergers and acquisitions.**
Module C blends valuation frameworks like DCF with the mechanics of M&A deals.

7 **ABFM Module D covers emerging business solutions like AI, start-up finance and green financing.**
Module D deals with newer, conceptual finance and technology topics.

8 **The CAIIB ABFM exam consists of 100 objective-type questions carrying 100 marks.**
Each question is generally weighted at one mark in the ABFM paper structure.

9 **Candidates get 2 hours to attempt the CAIIB ABFM exam.**
The 120-minute duration leaves roughly a minute per question on average.

10 **The CAIIB ABFM exam is conducted online in computer-based mode.**
IIBF administers CAIIB papers, including ABFM, through an online testing format.

11 **ABFM questions include case-study and numerical-based items besides regular MCQs.**
This format tests applied understanding, not just recall of definitions.

12 **CAIIB stands for Certified Associate of the Indian Institute of Bankers.**

It is a senior-level banking certification awarded on clearing the required papers.

13 **CAIIB has four compulsory papers: ABM, BFM, ABFM and BRBL.**

Candidates must clear all four compulsory papers along with one elective paper.

14 **CAIIB candidates must also clear one elective paper besides the four compulsory papers.**

Electives let candidates specialise in an area like Risk Management or Rural Banking.

15 **CAIIB elective options include Rural Banking, HR Management, Risk Management, Central Banking, and IT and Digital Banking.**

Candidates pick one elective paper from this list to complete their CAIIB requirement.

16 **ABFM Modules A and D are largely theory-based and considered relatively high-scoring.**

Their content leans on definitions and concepts that reward focused revision.

17 **ABFM Modules B and C involve heavier numerical work and case-study problem solving.**

These modules demand regular practice of formulas and applied sums.

18 **Financial leverage, operating leverage and combined leverage are key topics in ABFM Module B.**
These leverage concepts form the base for several numerical questions in the paper.

19 **Discounted cash flow (DCF) is a core valuation approach tested in ABFM Module C.**
DCF is widely used to value a business based on projected future cash flows.

20 **Candidates should verify exam dates, pass marks and negative marking rules on the latest official IIBF notification.**
IIBF can revise these details between exam cycles, so official sources should always be checked.
