20 True or False

Decide, then check the answer and reason below each statement.

Question 1

CAIIB Information Technology & Digital Banking is an elective paper under the CAIIB qualification.

TRUE

After the compulsory CAIIB papers, candidates choose an elective, and IT & Digital Banking is one option.

Question 2

The IT & Digital Banking syllabus has four modules labelled A, B, C and D.

TRUE

The four modules are Introduction to IT, Systems and Design, Applications in Banking, and Security, Controls and Audit.

Question 3

Module A introduces IT fundamentals such as operating systems, computer languages and databases.

TRUE

Module A is the foundation module covering system software, languages, DBMS and networks.

IIBF - Revision - CAIIB Information Technology Syllabus 2026: Full Module-Wise Guide for

Question 4

Module B covers the Software Development Life Cycle and data modelling techniques.

TRUE

Module B, Systems and Design, includes SDLC phases along with systems design, analysis and normalization.

Question 5

Module C deals with banking applications like core banking systems and delivery channels.

TRUE

Module C, Applications in Banking, is the most banking-specific and practical part of the syllabus.

Question 6

Module D focuses on information system security, threats, controls and audit.

TRUE

Module D catalogues threats and covers security measures, IS audit and IT service delivery and support.

IIBF - Revision - CAIIB Information Technology Syllabus 2026: Full Module-Wise Guide for

Question 7

Public Key Infrastructure and digital signatures are covered under Module C of the syllabus.

TRUE

PKI, including certifying authorities and digital signatures, is part of the Applications in Banking module.

Question 8

Normalization, including forms up to BCNF, is studied as part of Module B.

TRUE

The systems design and data modelling unit in Module B covers normalization from first form through BCNF.

Question 9

The CAIIB IT paper is generally considered concept-heavy rather than numerical-heavy.

TRUE

It rewards conceptual clarity and application, with few calculation-based questions.

Question 10

IIBF is the body that conducts the CAIIB examination.

TRUE

CAIIB, the Certified Associate qualification, is offered by the Indian Institute of Banking and Finance.

Question 11

BCP/DRP stands for Business Continuity Planning and Disaster Recovery Planning, covered in Module D.

TRUE

BCP/DRP appears in Module D's information system security measures unit.

Question 12

The CAIIB IT & Digital Banking paper is a compulsory paper that every CAIIB candidate must attempt.

FALSE

It is an elective paper chosen after the compulsory CAIIB papers, not a mandatory one for all candidates.

IIBF - Revision - CAIIB Information Technology Syllabus 2026: Full Module-Wise Guide for

Question 13

The CAIIB IT syllabus is divided into six modules covering hardware manufacturing in detail.

FALSE

The syllabus has four modules and focuses on IT concepts, banking applications and security, not hardware manufacturing.

Question 14

Module A is titled Information System Security, Controls and Audit.

FALSE

That title belongs to Module D; Module A is titled Introduction to Information Technology.

Question 15

Public Key Infrastructure is covered exclusively in Module A of the syllabus.

FALSE

PKI is covered in Module C, Applications in Banking, not Module A.

IIBF - Revision - CAIIB Information Technology Syllabus 2026: Full Module-Wise Guide for

Question 16

The CAIIB IT paper is primarily a numerical, calculation-heavy examination.

FALSE

The paper is described as concept-heavy and application-based rather than numerical.

Question 17

Normalization and SDLC topics appear in Module D rather than Module B.

FALSE

Normalization and SDLC are studied in Module B, Systems and Design, not Module D.

Question 18

The IT Act, 2000 and BCP/DRP are discussed in Module A of the syllabus.

FALSE

These topics fall under Module D's information system security measures unit, not Module A.
