20 One-Liners to Remember

Quick-fire facts for last-minute revision.

- 1 CCP stands for Certified Credit Professional, a certification exam conducted by IIBF.**
IIBF, the Indian Institute of Banking and Finance, administers the CCP certification for banking and credit professionals.
- 2 The CCP exam tests credit appraisal, risk appraisal, and both domestic and trade finance products.**
The syllabus is designed to cover domestic credit as well as trade finance for international transactions.
- 3 Modern credit understanding must extend beyond loans and overdrafts to quasi-credit products.**
Credit officers today assess risk across a wider range of facilities than plain loans and overdrafts.
- 4 Letters of credit, bank guarantees, co-acceptances, buyer's credit and supplier's credit are key quasi-credit products.**
These quasi-credit facilities are common across corporate and trade-finance banking desks.
- 5 IIBF lists CCP courseware published by houses such as Macmillan India and Taxmann Publications.**
These publishers produce recommended courseware used by CCP aspirants.

6 Official IIBF-listed CCP books are available in both Hindi and English editions.

Separate language editions let candidates study in the language they are most comfortable with.

7 IIBF textbooks are a thorough but often bulky and technical primary reference source.

Reading full textbooks cover to cover can take significant time for working bankers.

8 Learning Sessions offers video-led CCP study material as an alternative to dense textbook reading.

Video lectures aim to simplify difficult credit concepts compared to plain text.

9 The Learning Sessions CCP course is delivered by Mr Ashish Jain, a JAIIB and CAIIB holder.

His dual JAIIB and CAIIB qualification reflects broad banking-exam expertise.

10 Ashish Jain worked in a bank's credit department for seven years before becoming a trainer.

His banking background gives him practical insight into real credit appraisal work.

11 Ashish Jain has delivered more than 900 hours of online video lectures across multiple IIBF-related exams.

His lecture catalogue spans JAIIB, CAIIB, MSME, KYC and AML, and other banking exam topics.

12 Learning Sessions CCP lectures are delivered bilingually, mixing Hindi and English.

The Hindi-English mix is meant to make technical credit terminology easier to grasp.

13 Good CCP study material should be organised topic-wise so concepts build logically.

A logical topic sequence helps each new concept build on earlier ones.

14 Case studies are considered essential CCP prep material since the exam tests applied credit knowledge, not just recall.

The CCP paper is designed to test practical application of credit and risk principles.

15 ePDF revision notes and class recordings help candidates revisit CCP concepts after lectures.

Notes and recordings support repeated short revision instead of one long re-read.

16 A recommended CCP study approach blends official IIBF books as reference with structured video lectures for learning.

Books provide an authentic foundation while video lectures carry the teaching load.

17 Recalled questions gathered from past CCP attempts help candidates understand examiner patterns.

Reviewing recalled questions gives a sense of the exam's likely question style.

18 Mock tests that mirror the CCP exam pattern help candidates practise under timed conditions.

Timed mock tests build speed and accuracy alongside conceptual understanding.

19 Candidates should always confirm CCP eligibility, fees, marks and dates on the latest official IIBF notification.

Exam details such as fees and dates can change, so IIBF's own notification is the reliable source.

20 A suggested CCP final-two-weeks routine pairs morning concept revision with afternoon case-study practice.

Steady daily practice in the final fortnight is presented as more effective than last-minute cramming.
